### OUR COFFEE

We're incredibly passionate about our coffee, ask the barista if you'd like to know more!

We source and roast our own coffee to ensure only the very best ends up in your cup.

### OUR TEA

We source our teas from various suppliers. The teas are brought seasonally direct from the source to ensure they are authentic, fresh and full of flavour.

## OUR BEANS

### COMMENTS AND RECOMENDATIONS

You are completely welcome to alter your beverage however you wish, however here are a few of our comments and recommendations as to how we believe our coffee is best served.

#### MILK:

We steam our milk to approximately 60 degrees to optimise the sweetness and texture of the milk and most effectively complement the espresso. If you would like your beverage hotter than this please ask the waiting staff for your drink to be 'extra hot'.

#### FILTERS:

Our filter coffees have been processed and roasted to bring out the balanced flavour profile of the beans. These flavours will be more pronounced without milk and sugar.
